

Comparison

Why Choose Kerio Connect Over Mac OS X Mail Server?

More flexible deployment

- Deploy on Windows, Mac or Linux
- Versatile user authentication – integrates with AD, OD, or the built-in Kerio directory.
- Virtual appliance options for hypervisor or Cloud-based deployment.
- Manage a single email domain across multiple Kerio Connect servers via distributed domain.

More collaboration features

- Full groupware support in Microsoft Outlook and Entourage.
- Manage calendar, contacts, notes, tasks, and shared folders in WebMail.

More mobile device features

- Sync mail, calendars and contacts wirelessly with any Exchange ActiveSync® enabled device.
- Natively sync data between Blackberry devices and Blackberry Enterprise Server.
- Remotely wipe personal and business data from lost or stolen device.
- Receive new emails, and PIM changes instantly with direct push.

Comprehensive server solution

Five solutions in one: collaboration server, mobile email, email security, email archiving, and server backup.

More Than Just a Mail Server

Five Solutions in One

-  Cross-platform collaboration
-  Wireless mobile synchronization
-  Robust email security
-  Email archiving
-  Automated backup

Reviews

"Mail servers are hardly sexy, but Kerio Connect 7 is such a good product that it can't fail to excite. If you run or have ever thought of running your own mail server, you must put it at the top of your shortlist."

*Howard Oakley
Mac User UK*

"Kerio Connect was easier to use, less expensive, and provided more functionality than other products and provided the integration with Active Directory.

*Akis Fotakelis
Windows IT Pro*

Testimonials

"Security is without doubt the strength of Kerio Connect. Other features offered by the solution, such as the sharing of contacts, activities and appointments, have allowed us to improve teamwork."

*Roberto Polinelli
Mercedes Benz Italy*

"Our OS X mail server no longer served our current needs. Kerio Connect is easy to administer and comes with advanced anti-spam, anti-virus and scheduling features. We can better manage incoming emails and analyze unspecified addresses."

*Martin Fredrik
DOK Architects*

Global Reach

Kerio Connect is used by thousands of schools, businesses, government agencies, and non-profit organizations in 138 countries.
