

ESET Smart Security 5

Precise, powerful Internet security
that is easy on you and your system

Feature Highlights

- ✓ Antivirus
- ✓ Antispyware
- ✓ Parental Controls
- ✓ Internet Security Training
- ✓ Antispam
- ✓ Firewall
- ✓ Real-Time Protection
- ✓ Cloud-Enhanced Whitelisting
- ✓ Small System Footprint
- ✓ Antirootkit
- ✓ Removable Media Control

Looking to protect both your
PCs and Macs? Try ESET Family
Security Pack

ESET Smart Security 5 Features

-  **Antivirus** eliminates Windows, Mac and Linux viruses, worms, trojans, rootkits and other malware.
-  **Antispyware** protects your online privacy and identity.
-  **Host-Based Intrusion Prevention System (HIPS)** blocks unauthorized changes to programs.
-  **Cloud-Enhanced Whitelisting** enables faster, more accurate malware detection.
-  **Smart Detection** identifies viruses and cyber threats that conventional signature-based antivirus products don't catch with heuristic ThreatSense® technology.
-  **Removable Media Control** prevents malware infection from USB flash drives, CDs and DVDs; enables blocking by device ID.
-  **Antirootkit** detects and removes malware that hides from the operating system.
-  **Antispam** blocks unwanted emails and images.
-  **Gamer Mode** suspends pop-up notifications, scanning and scheduled tasks while playing.
-  **Parental Controls** restrict access to websites by specific category or individual URL.
-  **Internet Security Training** teaches you tips and techniques to make your online experience even safer.
-  **SysInspector** is a powerful diagnostic tool for in-depth analysis of the operating system, including running processes, registry content, startup items and network connections.
-  **SysRescue** helps you to create a bootable disk of ESET Smart Security 5 so you can scan and clean an infected system and reboot afterwards.
-  **Uninstall Password Protection** prevents unauthorized removal of ESET Smart Security 5.
-  **Graphs and Statistics** enables you to monitor network communication (uploads/downloads), disk operations, as well as virus and antispam statistics.
-  **Intelligent Firewall** defends against remote attacks with technology that adapts.

System requirements: Runs on any system with Microsoft® Windows® 7, Vista, XP, 2000 or Home Server and requires an internet connection

Why ESET?

- ✓ Protecting over 100 million users.
- ✓ Presence in more than 180 countries worldwide.
- ✓ Over 20 years of pioneering the computer security industry.

West Coast Labs certification

ESET holds Checkmark certifications in both detection and removal of infections.

Virus Bulletin VB100 awards

ESET NOD32 holds the world record for Virus Bulletin VB100 Awards, never having missed detecting an "In-the-Wild" worm or virus.

ICSA Labs certification

ESET is the first and only company in the world with ICSA certification for both Windows OS and Mac OS X.

AV Comparatives awards

ESET has more Advanced+ awards in retrospective tests than any other antivirus vendor.

PTPA (Parents Tested Parent Approved)

Received the esteemed Seal of Approval, the most publicized and highly recognized award seal in North America.

Securing your online life

Protect yourself with ESET's complete Internet security suite, built on the award-winning ThreatSense antivirus and antispymware engine. Our proactive heuristic technology intercepts and eliminates known and emerging threats hours or even days faster than competing products. To make your online experience even safer, the accompanying complimentary ESET Cybersecurity Training uses real-world cyber crime scenarios teaches you essential security tips and techniques. ESET Smart Security 5 is ESET's comprehensive antivirus solution.

Tune-in behaviors and turn-on control

Our Parental Controls shield your children from inappropriate web content by blocking access to individual websites and predefined website categories, while the accompanying Internet security training teaches you and your entire family how to avoid cyber threats, scams and hackers.

Refresh your online experience

With one of the smallest program file sizes of any Internet security software, a more intuitive interface and a smarter alert system, we offer a simpler, more easily managed digital experience for you.

Conserve your laptop battery

The automatic energy-sipping feature conserves power by postponing scheduled tasks when your laptop is running on battery power.

Accelerate your safety

Our cloud-enhanced whitelisting engine processes your files faster and more precisely by comparing your data to trusted files compiled in our ESET Live Grid™ database of over 100 million ESET users.

Block unwanted emails and unauthorized users

Our powerful antispam feature keeps your inbox clear of spam by filtering emails precisely and includes log capabilities. The powerful firewall defends your computer against remote attacks with robust traffic filtering, including customized profiles with specific rules for different network zones.

Share confidently

Not all computer threats come through the Internet; Removable Media Control protects you from potentially infected files exchanged through USB flash drives, CDs and DVDs. You can block removable media based on type of media, manufacturer, size and other attributes.

Customize with powerful advanced settings tools

ESET SysInspector delivers a powerful diagnostic tool for in-depth analysis of the operating system, including system registry, running processes, startup items and network connections. The Host Intrusion Prevention System (HIPS) allows you to customize the behavior of the whole system and each of its parts, with the option to define rules for system registry, processes, applications and files.
